

Four Elements Hotel Amsterdam is the world's first Zero Energy Hotel, located on the waterfront in Amsterdam.

With its unique IWF concept, the hotel sets a new standard in sustainable hospitality. It offers 195 guest rooms, 6 meeting rooms for up to 500 persons, and spans 10 floors. The hotel features Restaurant FIVE, a Rooftop Sky Bar, and a spacious waterside terrace – perfect for private events, business meetings, or relaxing with a waterview.

Energy neutral hotel

Restaurant FIVE & Rooftop Sky Bar

Natural air conditioning system

Underground parking garage 24/7

Allergy-free materials

Sustainability and Awards

Four Elements Hotel is the world's first hotel to use gravity and the natural flows of solar light and wind to form a natural air conditioning system, inspired by the ventilation properties of termite mounds.

This innovative engineering system was honoured with the 2019 EZK Energy Award for its outstanding achievements in sustainable energy generation and energy efficiency. The hotel also holds the prestigious BREEAM Excellent Certificate for its exceptional environmental performance.

Rooms and Suites

All 195 rooms at Four Elements Hotel are fully powered by renewable energy and feature a sustainable design.

The interiors are crafted from recycled, reclaimed, and allergy-free materials, with beautiful wooden floors and large windows offering stunning views of the harbour or the lake.

Each room is equipped with a private bathroom, flat-screen TV, desk, and safe, ensuring a comfortable and eco-friendly stay.

Restaurant FIVE

Restaurant FIVE offers a sustainable dining experience that combines culinary excellence with environmental responsibility.

Embracing a no-waste philosophy, our kitchen team crafts dishes using local, seasonal ingredients, many of which are sourced through our partnership with Instock - a Dutch initiative that rescues surplus food from producers and suppliers.

Rooftop Sky Bar

Sky Bar, on the 10th floor, offers stunning views over Amsterdam and the IJmeer lake. Ideal for private events, business gatherings, or exclusive dinners—up to 150 guests.

Enjoy cocktails, curated menus, live music, and a vibrant rooftop atmosphere.

Waterside Terrace

Our spacious waterside terrace is a hidden gem in Amsterdam, offering a stunning setting directly on the water. With a capacity of up to 300 guests, it's the perfect location for outdoor receptions, business events, or casual summer gatherings.

Meetings and Events

Four Elements Hotel offers 6 meeting rooms with a total capacity of 500 people, providing versatile spaces for meetings, conferences, product launches, and private events.

From the Sky Bar and the Private Dining room at Restaurant FIVE to our innovative, sustainable meeting rooms, each space is equipped with the latest technology and filled with natural daylight.

Unique elements like tables made from reclaimed Amsterdam canal plastic add a distinctive touch to every event.
