HISTORY

This fascinating property represents the epitome of elegance in the historical city of Prague, city of a hundred spires. The hotel has been created from a set of seven buildings dating back to 1284, many of which have historical significance, especially the enchanting 13th century Augustinian St. Thomas Monastery.

ACCOMMODATION

All of the 101 exceptional rooms including 16 suites and fascinating 4 signature suites are nuanced, with the majority boasting sophisticated architectural characteristics from vaulted ceilings and wooden beams to original doors with ornamental ironworks. Timeless room design inspired by the history of the Augustinian monastery features contemporary Czech Cubism furnishings popular in Prague during the 1920's and 30's. The marble bathrooms have heated floors with the majority having spacious walk-in showers and natural daylight. The rooms and suites offer superb views of downtown, the Prague Castle and St. Thomas Church, tranquil inner courtyards and gardens.

DINING

The gorgeous Augustine Restaurant, housed in a glass-covered courtyard, offers sophisticated European menu including delicious local Bohemian specialties. With its floor-to-ceiling windows overlooking a spacious terrace, the luminous restaurant is a relaxing place in the heart of historic Prague. The Refectory Bar is located in a delightful barrel-vaulted hall that once was the monastery refectory. The St. Thomas Brewery Bar, originally the Augustinian beer cellar, is an atmospheric basement bar that features 17th century stalactites and stalagmites, as well as a floating terracotta floor.

SIGNATURE SERVICES

With its rich monastic history Augustine was honored to take over some of the priceless monks' legacy.

The St. Thomas beer was brewed on the site from 1352 to 1951. The brewing tradition was rebuilt when the monastery passed its secret recipe to our newly opened hotel in 2009 allowing the dark lager to be brewed in a microbrewery near Prague and sold exclusively at the Augustine. Nowadays our guests have a unique opportunity to enjoy the monastic liquid legacy and other tasteful Czech beers during the beer degustation available on request.

Since the monastery has always been an educational centre, the Augustinian library treasures up thousands of rare and valuable ancient books. Explore this hidden gem through a monastery tour guided by monks and offered exclusively to our guests.
