WHY LONDON?

A world-class destination

Unrivalled connectivity

London is one of the world's best-connected cities, home to six international airports – including Europe's busiest, Heathrow – with direct flights to over 160 global destinations. Eurostar provides seamless access to major European cities. Inside the city, getting around is easy, thanks to an extensive rail and Underground network that helps delegates travel smoothly across the capital.

A global business centre

As Europe's leading business hub, the city hosts over 980,000 companies, including the European headquarters of more than half of the continent's largest corporations. Choosing London places your event at the heart of business and innovation.

Rich culture and heritage

Before or after your event, delegates can explore iconic landmarks such as Buckingham Palace, the Tower of London, or Tate Modern, enjoy West End theatre, or sample diverse cuisine from the city's 6,000 restaurants.

Our prime location

Situated in central Hammersmith, our venue offers direct connectivity to Heathrow Airport and London's major train stations, making it easy for delegates travelling from across the UK and overseas. We're also well placed for Olympia London, Kensington's museums and gardens, and scenic strolls along the River Thames. Central London's vibrant attractions are less than 20 minutes away, placing your event within one of the city's most prestigious and connected areas.

Dining designed around you

Great food brings people together – and here, it's an integral part of the experience.

Our chefs create fresh, seasonal menus using responsibly sourced British ingredients, with sustainability and flavour at the heart of every dish.

From elegant four-course plated dinners and generous buffets to interactive food stations and informal networking spreads, our catering is designed to flex around your plans.

We'll work closely with you to shape a menu that reflects your event, your guests, and your budget.

Guests can also make the most of our on-site dining options – whether that's international cuisine at Aroma, modern dishes in Artisan, or relaxed drinks and sharing plates in our Mirrors Bar & Terrace.

Committed to sustainability

We take a thoughtful, practical approach to sustainability – one that's visible in the decisions we make every day.

From the way we source ingredients to how we manage energy use, consideration sits behind every detail.

We're working towards Green Key accreditation, a recognised standard for sustainable hospitality. Across the hotel, we've introduced initiatives like refillable amenities, wooden room keys, sensor lighting and power-saving escalators.

Menus are built around seasonal, local produce, with leftovers redistributed through food-sharing schemes.

We also offer a carbon neutral calculator to help clients reduce the footprint of their events, and our 'Go Green, Skip the Clean.' programme encourages overnight guests to support energy and water conservation.

Our impact extends beyond the hotel too – we work closely with local charities and social enterprises to support the wider community.
