The Best Climate in Europe

Around 325 days of sunshine per year...

Surrounded by the Sierra Bermeja mountains and the Mediterranean Sea, the hotel location enjoys a micro climate with around 325 sunny days per year.

Clear blue skies make this most southern point of Europe one of the highest light intensity locations in the World. The Mediterranean climate gives warm dry summers (April -October) and mild winters.

Average Summer temperatures vary between 25 and 30 degrees, with a yearly average temperature of around 20 degrees.

In Estepona, Marbella around 90% of the days in the year start with a stunning sunrise...
