Everything at a glance

Plenty of space for your business

Are you planning a meeting or seminar in Hamburg? In an area of 407 m² we offer six function rooms with the capacity to accommodate up to 220 persons. All rooms are air-conditioned, free of pillars and offer natural daylight. Our professional conference service is at your disposal with advice and practical assistance to ensure the full success of your event!

Our experienced chef de cuisine Jan Filter will make sure that also the culinary aspect of your event will be perfectly met. Allow us to pamper your palates with light regional and seasonal cuisine – either in the form of a diverse choice of buffet dishes for lunch or a menu with table service in our comfortable “EPPO” restaurant.

Close to the centre of the metropolis on the River Elbe

- In the popular and trendy Eppendorf district of Hamburg
- Ideally located between the airport and the city centre
- Public transport to the city centre right in front of the hotel
- Just a few kilometres from exhibition centre, city centre (north), CCH congress centre and railway station
- In immediate neighbourhood of the renowned university clinic in Eppendorf

All of our rooms feature these facilities

- Ca. 3.7 m ceiling height
- At ground level
- Suffused with natural daylight
- Fully air-conditioned and individually adjustable
- No pillars
- Multimedia floor tanks
- Heat and soundproofed windows
- State-of-the-art technology
- WiFi included (in conjunction with an overnight stay/as a participant of a booked event)

Conference technology

Besides full air conditioning and natural light, the latest and most modern conference, presentation, and communication technology are standard features of our conference rooms. The technical facilities are customised to the differing demands of the respective rooms. Further details of the various rooms and/or room combinations and an overview of their facilities are outlined below for your information.

The latest additions to our equipment portfolio are two **mobile, digital flipcharts** with all the advantages of a 55-inch UHD display (optionally portrait or landscape) and interactive touchscreen functionality. Easily installed, these devices are quickly operational, and the magnetic pen that comes with them allow for a smooth, natural feel when writing. The highly responsive touchscreen means the device is easily operational for scrolling, marking, deleting, and editing content, as well as multi-user writing. You have the further option of digitally editing and saving content and sharing it by e-mail. Compatible devices (smartphones, tablets, and laptops) are easily linked up to the Samsung Flip, thus allowing you to exchange image and video content.

A further innovative highlight will give you the additional option in future of making wireless use of our presentation technology. The **wireless “ClickShare” presentation solution** is a flexible and intuitive system that enables several participants to share and present content simultaneously and at a single click on a central monitor, screen, or display. For this function, all that is needed is the ClickShare App or a mobile button slotted into the USB port of your laptop. This wireless transmission technology is already installed in the “Alster”, “Fleet 1”, and “Fleet 2” rooms where it is available for free use as part of the conference package. In our “Elbe 1”, “Elbe 2”, and “Elbe 3” rooms, you can book the wireless presentation solution with a maximum of two mobile buttons as an additional extra for your event.

The “Elbe” rooms are equipped with **modern LCD laser projectors with between 6,000 and 8,000 lumens**. The projectors provide premium image quality in WUXGA resolution – even in daylight conditions. You will be delighted by the brilliant, vivid colours. The projectors are fixed ceiling-mounted installations, and they are compatible with all standard port interfaces. The “Alster”, “Fleet 1”, and “Fleet 2” rooms each feature an ultra HD touchscreen from the Clevertouch Pro series as a permanent wall-mounted installation. The user-friendly surface interface is simple and intuitive in design, so that anyone can use the screen without the need for prior instruction or know-how. The touchscreen lends a whole new scope to how you organise your meetings, allowing you to work together creatively in an inspirational atmosphere.
