GRAND | HYATT®

NEW DEVELOPMENT

TOTAL OF 549 ROOMS

MEETING & EVENT SPACE up to 4.000 m² (43.055,64 sq ft.)

SCHEMATIC DESIGN

The building will be clad with a light warm natural stone similar to travertine.

The inner courtyard facades are designed based on the same concept as the main façade, but without the angled balconies and also slightly smaller. They are also accessible by sliding doors.

Glass has been chosen for the railings for various practical reasons alongside the aesthetic considerations. Glass will provide additional sound protection from the busy traffic into the hotel rooms and provides an added safety element protecting against items falling from the balconies.

ROOFTOP RESTAURANT**

An aerial photograph of a modern outdoor atrium pool. The pool is rectangular and filled with clear blue water, featuring a mosaic tile pattern on the bottom. It is surrounded by a light-colored stone or concrete deck. Along the top and bottom edges of the pool, there are rows of white lounge chairs. A central island in the pool contains several large green plants, including palm trees. To the right of the pool, there is a seating area with white sofas and chairs on a green lawn. The overall design is clean and minimalist.
