beverage packages

Sustainable Meetings

Carbon footprints offset from all meetings and events taken place at Radisson Hotel Group hotels worldwide

The hotel uses refillable glass water bottles for all events, which eliminates plastic bottle waste

Our hotel uses the Waste to Water system, which means less than 1% of food waste goes to landfill. Natural filtration systems are also used for cooking oil, creating healthier food and reducing oil waste

We utilise bamboo eco-packing and utensils which are fully biodegradable, and eco-straws which can decompose, unlike plastic.

Pencils are provided (rather than pens) in our Day Delegate Package, with wood sourced from sustainable plantations
