PANAMA

To be a traveler is to love the road, and where it can lead you.

Here's the allure of Panama: Wherever you come from, this road leads to a fascinating intersection. This is where the Atlantic-infused waters of the Caribbean mix with the Pacific. This is where North America meets South America.

PANAMA

No trip to Panama would be complete without seeing the locks of the Panama Canal, have a walk and food in the historic Casco Viejo district or learn about the Panama Viejo, which was where it all started.

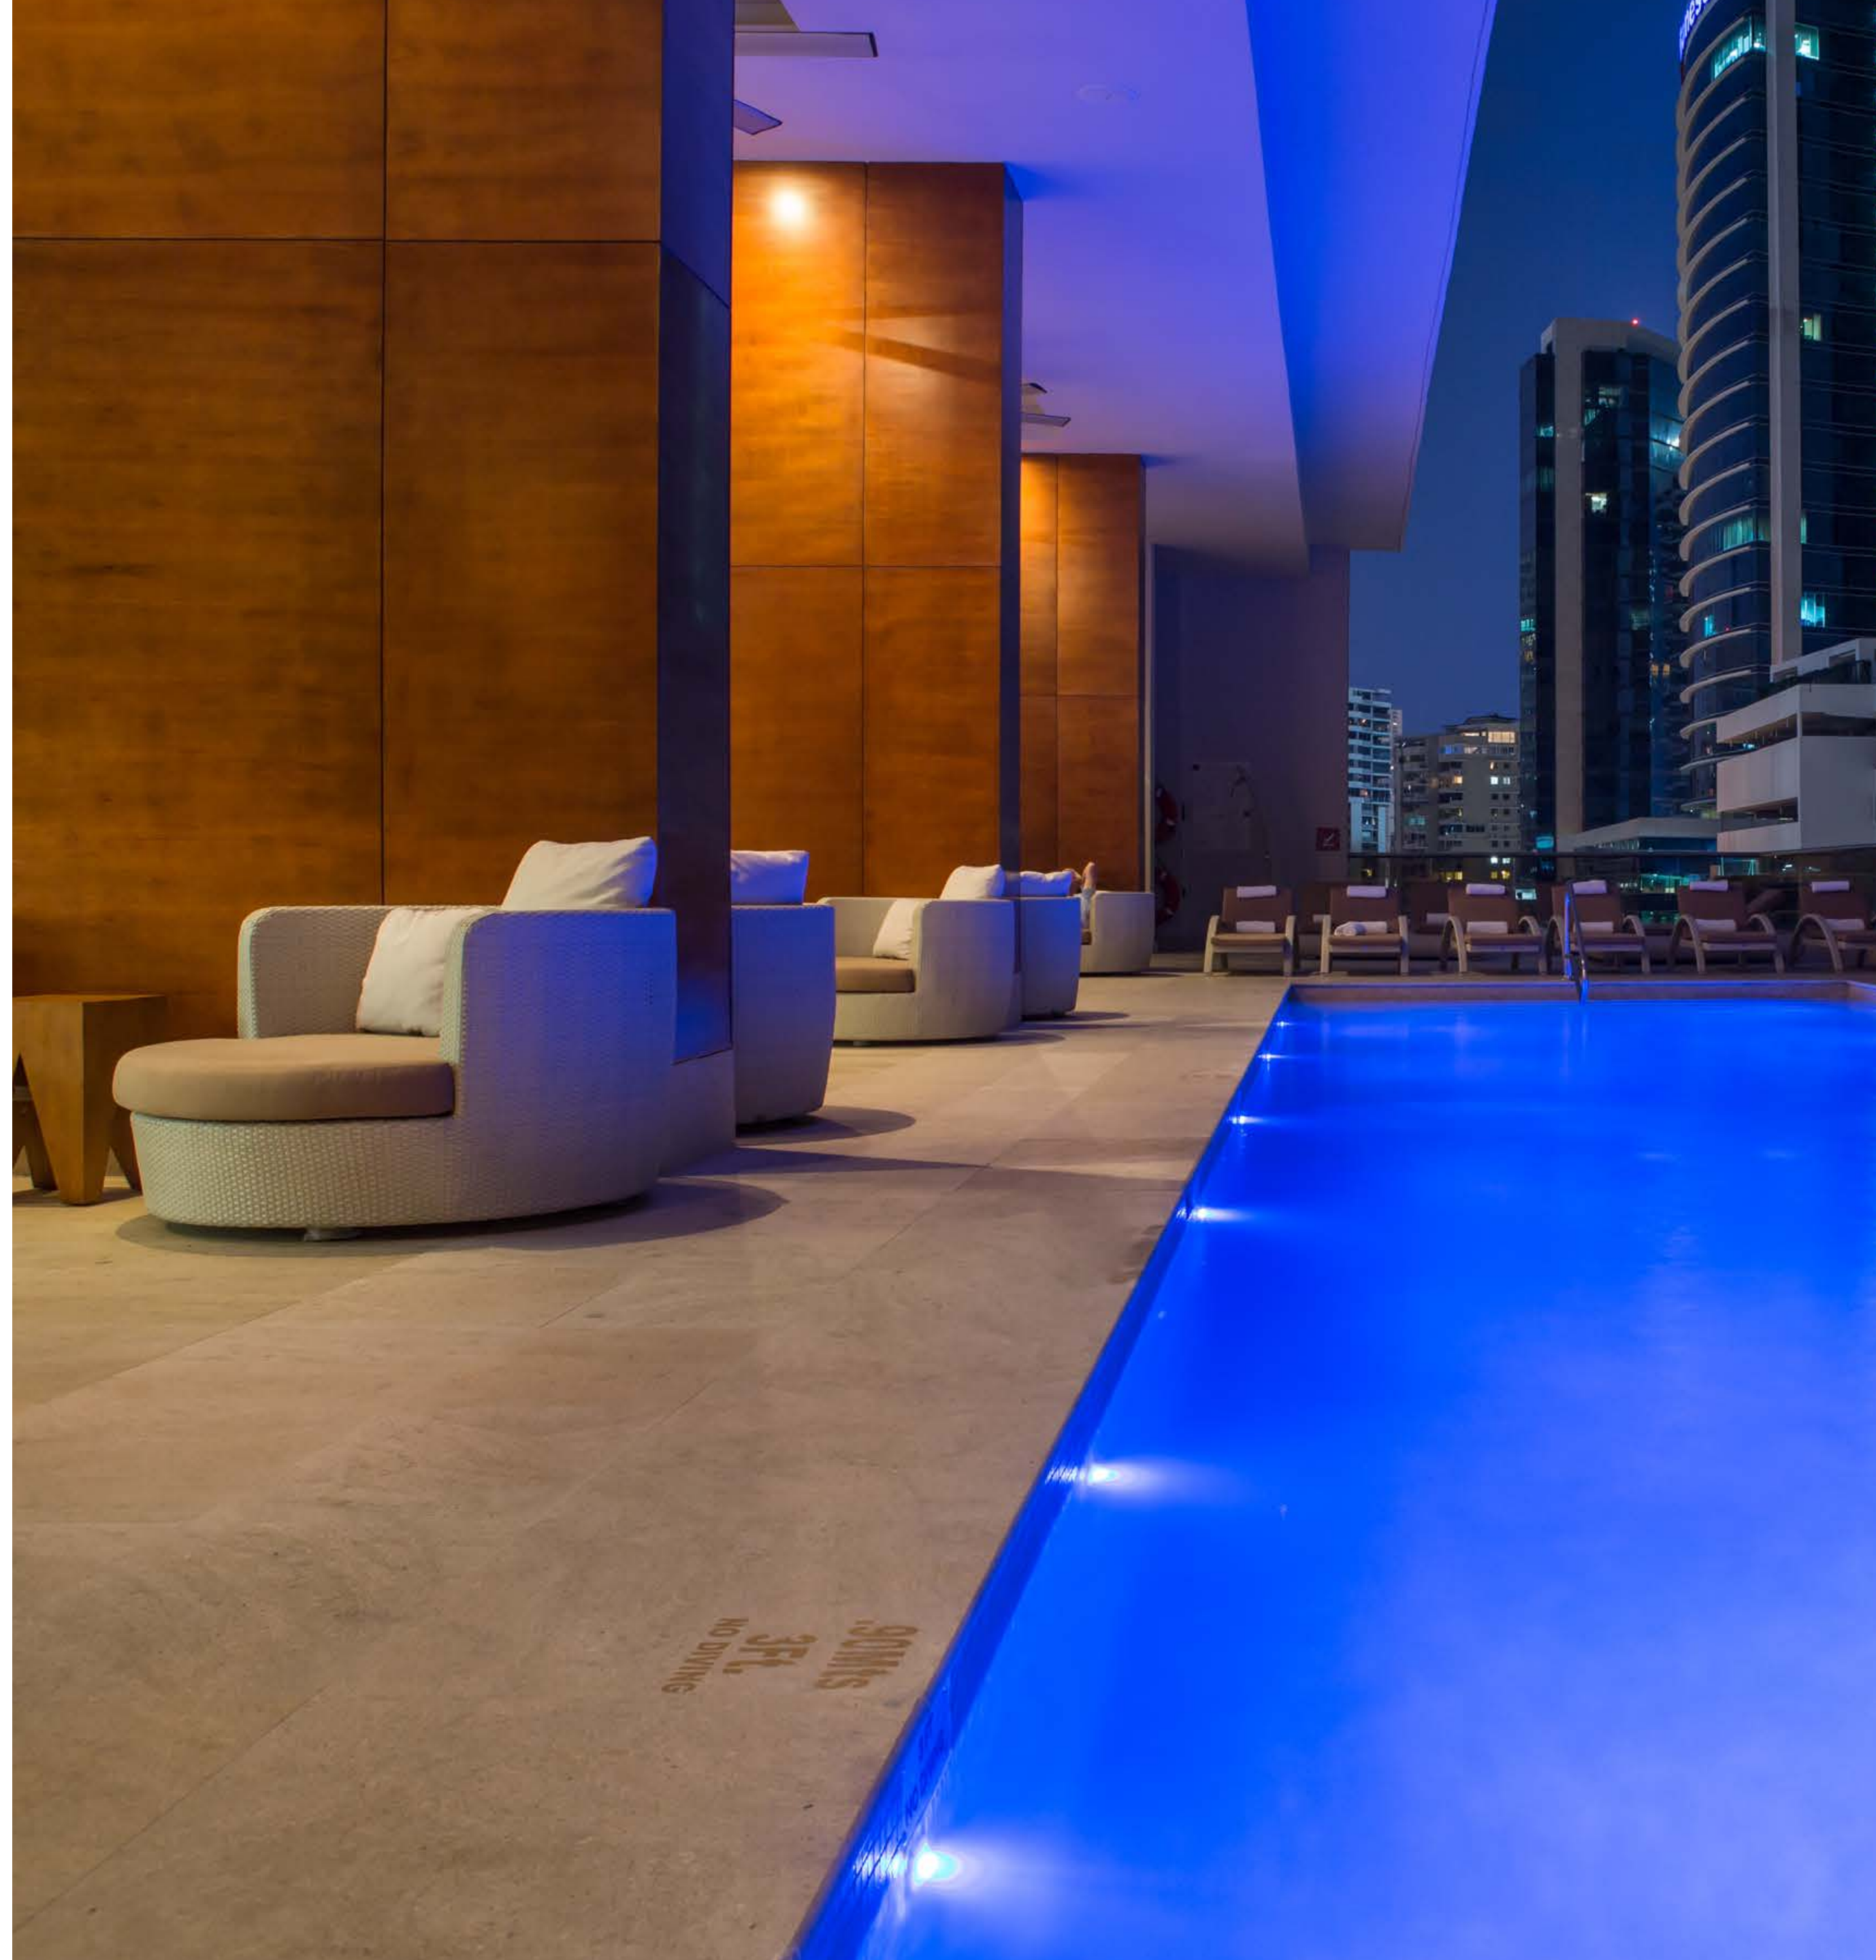

If you are searching adventure, you have come to the right place, in Panama you have the opportunity to discover the Indian villages, to learn about their life habits, traditions and housing. You could visit the rain forest, the waterfalls in the volcanos, the jungle with birds, monkeys among others.

Why not going to the ocean and see the incredible whales and the turtles, or just relaxing San Blas, Bocas del Toro or any other virgin white sand beaches or islands.
