Arnhem

ARNHEM

The Arnhem region is throbbing with creativity and innovation. The city's ArtEZ Academy of Art & Design has produced the likes of Marcel Wanders, Daan Roosegaarde and Victor & Rolf, and the creativity is showcased at the annual Fashion + Design Festival Arnhem as well as State of Fashion which has evolved from the Arnhem Mode Biënnale. But Arnhem also has plenty of fashion and design for you to admire – and buy – all year round! In the 'Modekwartier' fashion quarter, you can see the designers at work and purchase their latest creations from them directly. And if you're looking for something a little different when shopping in the city centre, head just off the main high street with all the major chain stores and you'll find the '7straatjes' zone full of small, independent boutiques selling unique products.

NATURE LOVERS

Veluwezoom is characterised by forests, heaths, drifting sands, country estates and a rich variety of natural beauty. Visit the most scenic part of the Netherlands for a lovely day in nature!

Situated to the east of Arnhem in the scenic area between IJsselvallei and Veluwe, the towns of Rheden, Renkum, Rozendaal and Brummen have a great deal to offer. Veluwezoom National Park is 48 km² of unspoilt nature where you can enjoy the large forests and heaths to your heart's content - an ideal place for walking and cycling.

MEETINGS GET BETTER WITH THE RIGHT NUTRITION

Healthy food served at carefully chosen times ensures that business meeting participants stay more focused. Fats and sugars play a key role in this. For example, 'fast sugars' provide an energy boost, but are very short lived and are followed by a marked decrease in energy. 'Slow sugars' ensure the balanced uptake and release of energy which keeps you energized.

When it comes to nutrition, Postillion Hotels approaches people at business meetings as professional athletes. We are the first in the Netherlands to introduce the Brainfood concept which enables participants to perform to the best of their abilities!

- Improves concentration
- Is full of healthy nutrients
- Reduces the after meal dip
- Keeps you energized

BRAINBREAK

Feeling distracted after an hour or two during a meeting? Why is that? Set out two curves in time... 'The concentration curve', which decreases during a meeting. And 'the importance of the agenda items', which remains the same. We call the increasing difference 'the gap'. The larger the gap, the more difficult the process: decision-making takes longer; subjects do not get the attention they deserve; inspiration decreases; distractions become bigger or in the worst case: energie levels diminish.

Conversely, the same thing applies: avoiding 'the gap' eases the process.

But how do you do that? We at Postillion invented the following packages:

- Haka Break
- Yoga Break
- Balloon Break
- Shiatsu Break
- Brass Break

Postillion Hotels

It's actually a no brainer!
