# 01 ABOUT US

[WATCH VIDEO](#)

## ABOUT US HISTORY

More than 25 years ago, Dr. Egli, a successful Swiss businessman and lawyer, imagined an idyllic place where he could make his dream of living in the heart of Andalusia come true.

And so the magnificent 350 hectare complex was born, amidst forests of oak, holm oak, almond and olive trees, between the cities of Malaga and Granada. A wonderful place where you are lulled to sleep by the sounds of nature and gently awakened in the morning by birdsong.

A place to feel the spirit of Andalusian poetry and a slower, more leisurely way of life... that's how La Bobadilla was created. An enclave to share with friends, to enjoy life.

The Telegraph

# ECOLOGICAL HOTEL

In addition, La Bobadilla, a Royal Hideaway Hotel, is committed to providing excellent hotel services with a philosophy of respect for the natural surroundings and uses olive stones as an energy source for heating and hot water.

Biomass is one of the most environmentally-friendly energy sources that exists, with zero pollution.

Of all the types of sustainable energy, burning olive stones as an energy source has enormous potential, as it leaves very little waste; burning one tonne of olive stones generates 100 grams of ash, which can then be used as a plant fertiliser.

Sport, nature and sustainability are closely linked to the Eco-Bobadilla concept. La Bobadilla assumes its responsibility and commitment, offering guests outdoor activities and sports in tune with nature and sustainable development.
