

CONTEMPORARY ARCHITECTURE IN THE MYSTICAL HEART OF WROCLAW

TIMEA BALZER, HOTEL'S GENERAL MANAGER CORDIALLY INVITES YOU

A TRANQUIL ENCLAVE IN THE BUSTLING CITY

Inspired by historical Wrocław, 5-star hotel The Bridge Wrocław MGallery was built in the oldest metropolitan district. Formerly situated on an island, Ostrów Tumski now plays an integral part of the city. The area is considered an oasis of silence and it is the spot to recharge after an intense day.

Abundance of raw materials, such as stone, iron, and concrete, which is present in the modern structure of the building corresponds well with the surrounding Gothic and Baroque architecture. The symbolism of Ostrów Tumski reminiscent in the elements of decor emphasizes The Bridge's mystical ambiance. Minimalistic interiors are accompanied by design decor; while soaring windows fill the building with natural light and create a unique atmosphere.

This lifestyle hotel with 184 rooms (including 17 suites) provides access to the river and a spectacular garden. Guests are inspired by an incomparable style and history reflected in contemporary times.
