RESTAURANT

Modern Scandinavian food culture influenced by Japanese cooking methods and flavors. Complex creations that are easy to like. We use local products which are carefully selected by season. With a genuine craft in every detail, we want to create a dining experience beyond the usual.

The restaurant is designed by architect Gert Wingårdh together with our culinary director Frida Ronge.

UNNN

*'an intimate space, a gastronomic
institution'*

THE VISIONARY

Tak's culinary director Frida Ronge is the fishmonger's daughter from Göteborg who has created her own style of Japanese-Nordic cooking. Inspired by her frequent visits to Japan, Frida wanted to create something similar but with a strict Nordic approach to ingredients.

'UNN is an holistic experience, taking more senses than the taste into account. You see everything being prepared and cooked in front of you, you hear the sizzling of the stove, you smell the smoke and fumes. It's truly something out of the ordinary that I'm proud to have among all the TAK offers.'

THE EXPERIENCE

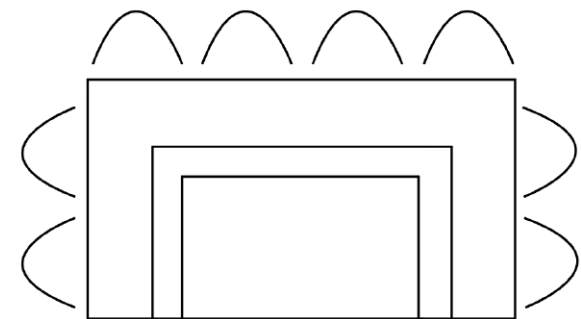

UNN constitutes a one-of-a-kind dining experience, a gastronomic sanctuary where all details matter. Nordic produce discerningly selected with a seasonal approach, cooked by chefs with a thorough knowledge in Japanese techniques. We follow an omakase philosophy, serving and cooking dishes that's best on the date of your visit. Combined with beverage pairing by one of our knowledgeable sommeliers, it's a delight for anyone into culinary masterclass.

THE SPACE

Behind a black door, tucked away in our main restaurant you will find UNN. An intimate restaurant with eight seats where you interact with the chef while facing the teppanyaki stove.

IZAKAYA

In our Izakaya on floor 14 we raise the volume and the tempo to create a vibrant atmosphere. The inspiration is the izakayas of Tokyo's lively Shibuya area. Here we serve sushi, sashimi and classic Japanese izakaya dishes, while we keep the same stringency as in our restaurant when it comes to quality.

BAR

Our main bar on floor 14 serves as a central hub with one of the best views of central Stockholm that you can find publicly. With great craftsmanship behind the bar, a packed culture program with music, arts and live acts and its signature mix of different people creates one of Stockholms most popular hangouts for locals and tourists alike.

CHAMBRE SÉPARÉE

Izakaya

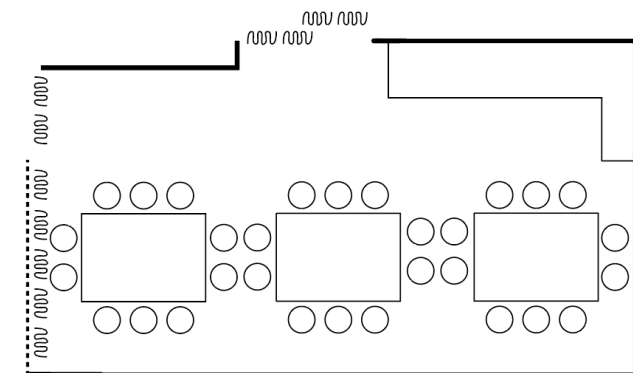

THE SPACE

Close to the atmosphere in our Izakaya, tucked away in the far end with curtains that keeps the vibrant feeling combined with a private space. This chambre séparée is perfect for mingle or dinners around a communal table. With a possibility to add on your own bartender, it can extend as your private rooftop bar throughout the night.

TERRACE

*'the meeting point of Stockholm's
business district'*

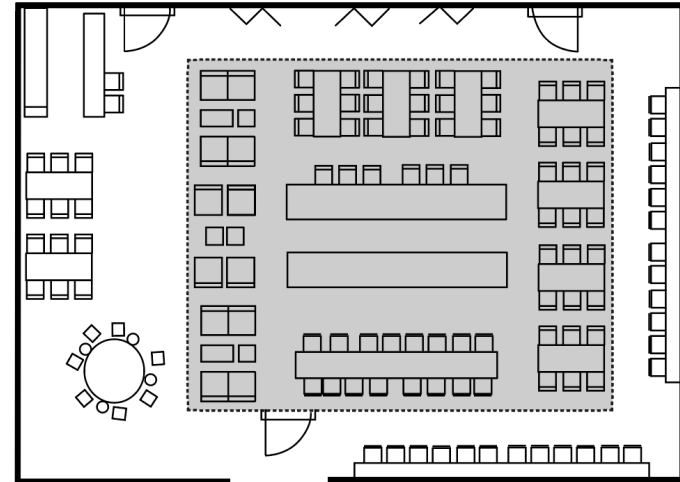

THE SPACE

Our terrace is the meeting point for colleagues from Stockholm's CBD as well as a hangout for the cities socialites and creative industry. In winter time, we enclose is with glass walls, keeping the view but also the temperature. Whether it's an after work, dinner or event, you will have stunning views over central Stockholm as the backdrop.

*'a calm living room, high above the
city centre'*

THE SPACE

With floor-to-ceiling windows and stunning views over central Stockholm, IMA is an architectural love letter to summer: a pergola where the light flows throughout the year with the decor in bright colors and green plants.

Organic and sculptural forms in tactile and natural materials form the basis of the interior and reflect the ambition and craftsmanship of the Japanese inspired drinks. Iconic design classics blend with contemporary design in a relaxed and elegant mix that gives an intimate character to this poetic rooftop oasis. Whether you are hosting a board room meeting, cocktail reception or an intimate dinner, IMA offers an elegant and exceptional backdrop.
