

IBEROSTAR★
HOTELS & RESORTS

IBEROSTAR GROUP

is a family-owned business dedicated for more than 60 years to the tourism industry in our pursuit to set the standard for responsible tourism.

We are committed to protecting our oceans and communities, working to generate shared value wherever we operate.

“

Responsible Tourism at Iberostar is one of our pillars, present in all of our standard operating procedures.

Our goal is to be leaders in quality and to achieve the satisfaction of our clients with an open organizational culture that encourages innovation and teamwork.

IMPROVING
COASTAL HEALTH

CIRCULAR ECONOMY

Iberostar Group's 2030 Agenda focuses on moving towards a circular economy and aims to do so by eliminating waste and working to become carbon neutral by protecting nature in our destinations like mangroves.

RESPONSIBLE CONSUMPTION OF SEAFOOD

Overfishing is one of the greatest global threats to the future production of seafood. With 70% of the world fish stocks fully exploited, consuming responsibly sourced seafood is more important than ever.

IMPROVING COASTAL HEALTH

The protection and management of these precious ecosystems ensures securing the future of the coasts for tourism, communities and the goods and services they provide to the global population.

Iberostar resorts are located on the best beaches in emblematic destinations. This is why we are committed to preserving biodiversity, fighting against climate change and protecting the future of our oceans.
