# 1.1 History

## ***From Le Palace to DoubleTree by Hilton.***

On the occasion of the World's Fair, the Palace hotel opened its doors in 1910, with Georges Marquet, a self-made entrepreneur who was later to head several luxury hotels in Europe, at the helm. With an individual bathroom for each room, a private telephone and central climate control, this hotel was the epitome of luxury.

Over the years, the Palace hotel saw the world change. It was turned into a hospital during the occupation, but also hosted world stars, high-ranking political leaders and even royals.

On 1 September 2021, after several months of intensive renovation works, the hotel will reopen its doors under the name DoubleTree by Hilton Brussels City.

## Brand values

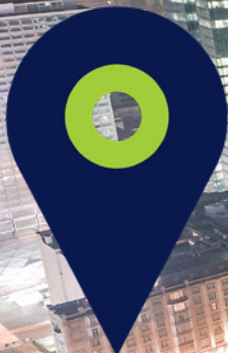

***We are a brand that believes in the power of hospitality and that it all starts with a warm welcome.***

Nearly 100 years ago, Conrad Hilton shared his vision to fill the earth with the light and warmth of hospitality. DoubleTree by Hilton brings to life that vision every day, starting with its signature, warm DoubleTree Cookie welcome. All day, every day, we're welcoming people into our hotels with a warm cookie and a warm smile.

The Cookie is our symbol of welcome and a gift that's just the beginning of everything else we have waiting for you. The warmhearted nature of every DoubleTree Team Member, our unique CARE culture and our commitment to making the world a more welcoming place are at the center of our hospitality.

### *Where two worlds meet*

DoubleTree by Hilton Brussels City was recently renovated by Doos Architects and offers the best of both worlds: the glamour of an iconic building in the city centre and the comfort and convenience of the 21st century.

At the main entrance of the hotel you will find the Brussels Botanical Garden, a lush oasis full of indigenous trees and a beautiful rose garden. At the back you will find one of the most lively squares in Brussels, Place Rogier. The hotel is located in the city's northern business district with its many lively bars, quirky brasseries and close to the main shopping streets and cultural hotspots of Brussels. The hotel itself combines both, natural lighting, lots of greenery and subtle details that make you feel not only welcome, but also able to escape and find inspiration.

Let's create memorable stories together.

## Restaurant & bar

***“Pull up a chair. Take a taste. Come join us. Life is so endlessly delicious.”***

***Ruth Reichl  
American Chef & food writer***

Curved mirrors from 1920, decadent gold tiles and large pillars set the mood in our lively hotel bar. The perfect place to reflect on your day in Brussels over a Belgian beer or signature cocktail.

Our chef serves an intercultural, healthy menu in both our restaurant and bar, with a wide range of Belgian classics brought with a twist. Wherever possible, he integrates seasonal ingredients from our local and trusted suppliers.

Need some peace and quiet? Dine in the comfort of your room and order room service.

**Culture of CARE**

# 7.1

## Sustainable & ecological

### ***Culture of CARE, our commitment to make the world a more welcoming place.***

What is good for the planet is equally good for the customers and the staff of the hotel. DoubleTree by Hilton Brussels City has made every effort to contribute to a greener, more ethical world through a series of sincere actions, the most important of which is the planting of a tree for every booking in order to combat deforestation,.

Other actions have been added, including: dispensers of still or sparkling water on each floor, available free of charge to hotel guests, or even flow regulators in the showers. As for the catering offer, special attention is paid to the origin of the fresh products, with a particular preference for local partners.

# 7.2 Actions

## **Teaching Kids to Care & Travel with Purpose**

As a member of the Hilton family, we support global initiatives like Teaching Kids to Care and Travel with Purpose. Teaching Kids to CARE centers on the belief that small actions can make a world of difference – and that caring can be fun, too! And Travel with Purpose is our Environmental, Social and Governance (ESG) strategy to drive responsible travel and tourism globally

## **Plant-C**

For every reservation made or every €100 spent on room rental, we will plant a tree, until the goal of 10,000 trees is reached. This forest will offset our CO2 impact, calculated over 30 years!

## **Many a little makes a mickle**

Every department at DoubleTree by Hilton Brussels City has implemented actions to reduce our ecological footprint and to improve the well-being of everyone on the planet and in our hotel. Water flow regulators, eliminating the use of plastic, the Padox Code of Conduct are just a few examples.

Would you like to know more about our Culture of CARE? Ask for our sustainability brochure.
