The wait is over. Copenhagen now has a unique rooftop that both locals and tourists can visit every day of the week with a table reservation. NH Collection Copenhagen welcomes you to ROOF - Bar & Lounge. At the first step out of the elevator on the 8th floor, guests can experience a spectacular view of the entire city and the city's many landmarks such as Børsen, Christianborg, Our Saviour's Church, The Black Diamond, The Marble Church and the Øresund Bridge.

"At NH Collection Copenhagen, we have been looking forward to welcoming locals and tourists to ROOF - Bar & Lounge. We are proud to have created a unique rooftop in Christianshavn, and it will be exciting to see how ROOF can contribute positively to the city life and atmosphere in the area and also in the Copenhagen hotel market. The great result has been created in collaboration with ATP Ejendomme, which has helped develop the new rooftop into an urban oasis in the heart of Copenhagen," says Anders Duelund, General Manager of NH Collection Copenhagen.

### *Neighbors on the menu*

At ROOF there is a lounge area outside on the terrace under the large umbrellas with seating for 100 guests, where heat lamps can be lit to extend the evening, and seating inside a pergola with room for 35 guests. ROOF is open every day from noon, where the menu offers open sandwiches, salads and many other delicacies. From late afternoon until the kitchen closes, ROOF offers a delicious 'snack, nibbles & bites' concept consisting of smaller dishes such as lobster and roe croustades or caramelized onion cream pies that complement the specially crafted signature cocktails, all inspired by and named after the city's towers and rooftops. For example, try the C4 cocktail named after Christian the 4th and his many iconic buildings in the area.

ROOF - Bar & Lounge is open all year on Sunday to Wednesday from 12 pm to 10 pm and Thursday to Saturday from 12 to midnight.
