

Set in the heart of the Jaddaf Waterfront, and just minutes away from Dubai International Airport, Palazzo Versace Dubai Hotel & Residences is magnificently located on a premium waterfront development with unobstructed views of the Dubai Creek.

Palazzo Versace Dubai is inspired by Neoclassical Architecture with elegant traces of Arabic architectural elements. Reminiscent of an Italian Palazzo from the 16th century, it features all elements of grandeur, space, opulence of those days such as high ceilings, a striking entrance, landscaped gardens with water features and a range of well-crafted furnishings, mainly from Italy.

The location of the hotel mirrors the same sense of place as a grand hotel setting in the Lago Maggiore or Lake Como.
