## DESTINATION: SITGES

Sitges has always been a meeting point and cultural exchange between the Penedès and the Mediterranean Sea.

It is characterized by a mild and sunny microclimate, which offers more than 300 days of sunshine a year, thanks to its location at the foot of the rocky massif of Garraf.

Its charming old town, with a 4-kilometer promenade and 17 beaches, only 25 kilometers from Barcelona airport, makes Sitges an outstanding destination on the international tourist map, a privileged place with beautiful scenery between the sea and the mountains.
