Our History

History

Van der Valk is a family-owned business founded in 1929 by **Martinus Van der Valk**. What began as a café in a farmhouse flourished through hard work and the entrepreneurial spirit passed down to his 12 children. Today, the 4th generation manages over 100 hotels across Europe and the Caribbean.

Values

Family members have always worked **together**, often from a young age, in a warm and competitive atmosphere. Family meals, convivial and festive, reflect this unity. The company values hard work while fostering a **welcoming environment** for both staff and guests.

Symbol

The **toucan** logo was chosen after World War II, avoiding birds of prey associated with dark memories. This tropical, friendly, and colorful bird better represents the cheerful and **welcoming** identity of the Van der Valk family

Stay

Whether you're here for business or pleasure, after a night in one of our rooms or suites, you will wake up feeling **relaxed**, **revitalized**, and ready to start the day with complete **serenity**.
