

Barceló Tenerife

INTO THE NATURE

A UNIQUE HOTEL IN THE HEART OF VOLCANO COUNTRY

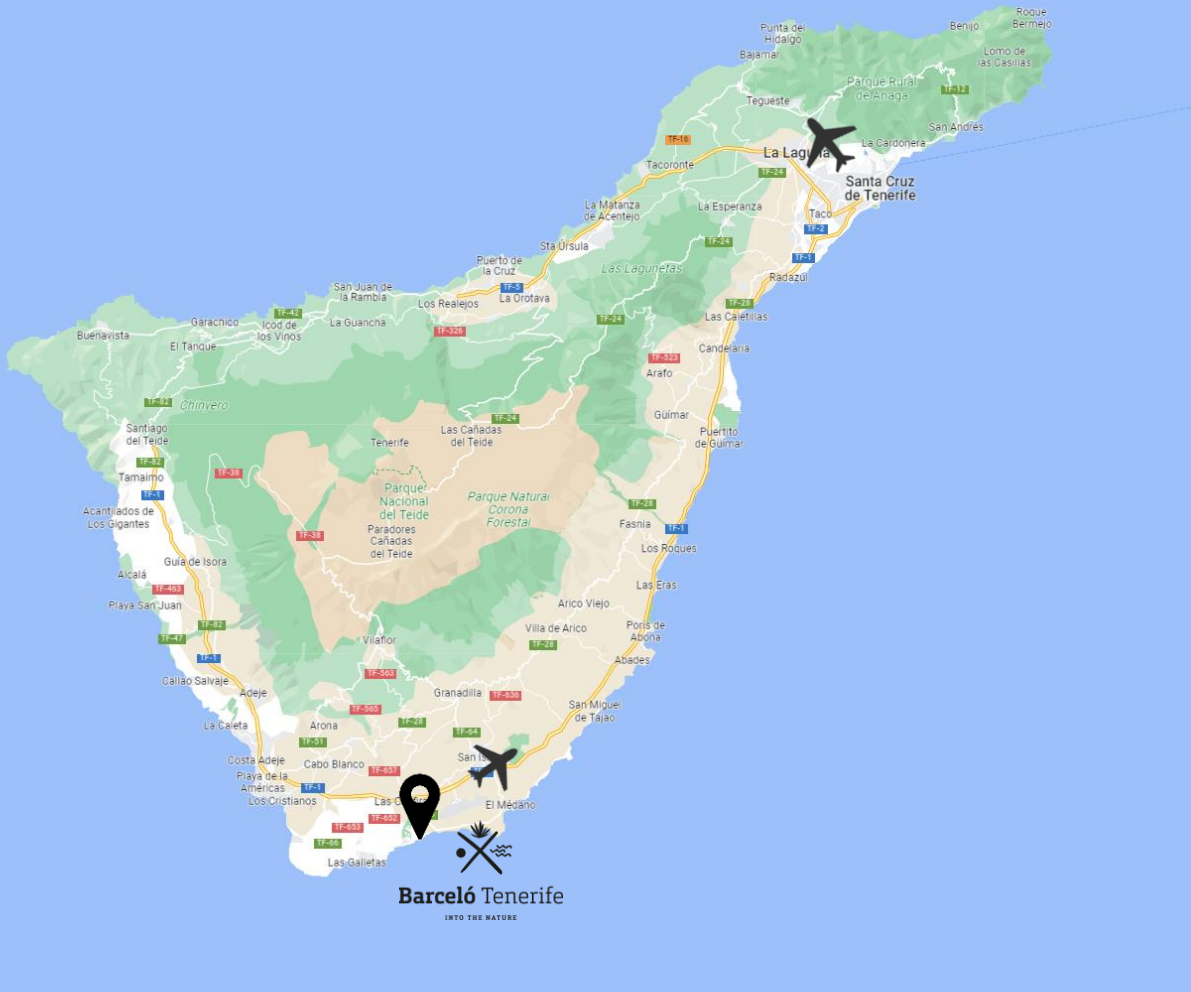

What makes the newly refurbished five-star Barceló Tenerife Hotel unique is its combination of exclusive services and facilities, together with the natural and cultural heritage of its beautiful setting, on the sea front and in the midst of nature.

The Hotel is close to a spectacular landscape which is the only one of its kind in the world – the San Blas Environmental Reserve, part of the natural and cultural heritage of southern Tenerife.

The hotel's architecture and décor are inspired by the shapes, colours and textures to be found in its natural setting, and it blends harmoniously into the landscape, thereby reducing its environmental impact and helping us to achieve our aim of sustainable tourism.

In addition, guests seeking a unique experience have the option of booking a stay at our exclusive Royal Level, a hotel with its own identity where they can enjoy first-class service, special benefits and private Royal Level areas.

Among the hotel's outstanding features are its fine selection of bars and restaurants; its 7 magnificent outdoor swimming pools, one of which is temperature regulated throughout the year; as well as its navigable lake, climbing wall, and beach volley pitch. Time to relax and unwind is guaranteed in our Wellness zone – in addition to plenty of fun with original leisure options such as an auditorium, children's playground, sports facilities and nearby golf courses.

ENVIRONMENTAL RESERVE

The Barceló Tenerife Hotel is close to a spectacular and unique landscape — the San Blas Environmental Reserve, an important part of the natural and cultural heritage of southern Tenerife.

The hotel is the only one in the Canary archipelago with an environmental reserve on its premises, making it a unique spot in the Islands.

It is an environmental and cultural reserve, unique in the Canary Islands. Comprising natural settings with equipment and interactive activities combining fun and scientific rigour, the aim is to enable visitors to explore the reserve as an illustration of the history of the Canary Islands from their formation up to the present time.

Eruptions of lava, gases and ash, explosions and earth tremors... All of this takes place within a framework of constructive and destructive natural events which, in a balancing act determined by the laws of nature, resulted in the present appearance of the island and of the San Blas reserve.

Nature, creativity, fun, excitement, culture and technology join forces in one of the island's best-kept secrets, to offer a unique experience in the heart of volcano country.

ENVIRONMENTAL RESERVE

Guided tours to the San Blas environmental reserve are available, to enable guests to discover the area's extraordinary natural and cultural wealth.

Activities available:

- Visit to the environmental reserve: a guided tour of the breathtaking volcanic landscape.
- Museum
- The San Blas procession
- Historical Experience tunnel

Sports activities:

- Hiking circuit
- Mountain bike circuit
- Nordic trek
- American sports field
- Jogging circuit

- Picnics
