THE HOTEL

Discover Luxury at Costa del Sol

The METT Hotel & Beach Resort is a 5-star hotel offering 249 rooms and suites elegantly designed around the Azure Beach pool, a state-of-the-art facility with breathtaking views of the Mediterranean Sea. Located between Estepona and Marbella on the beautiful Costa del Sol, this resort is the perfect holiday destination for those seeking an ideal combination of luxury, comfort, and natural beauty.

Gastronomy and Entertainment

At METT Hotel & Beach Resort Marbella-Estepona, gastronomy is a major pillar. We focus on offering high-quality food along with unique and fun entertainment. With renowned brands such as Azure Beach, Ammos, and Isola, each restaurant is designed to appeal to both hotel guests and external visitors, ensuring a memorable dining experience.

Wellness and Relaxation at MOI Spa

To ensure a complete experience, the resort counts with MOI Spa, where qualified therapists provide a wide range of treatments designed to soothe, pamper, and de-stress both mind and body in conjunction with Natura Bissé. From traditional massages to facials and wellness treatments, MOI Spa ensures a rejuvenating and personalized experience for each guest.

Fitness and Healthy Lifestyle

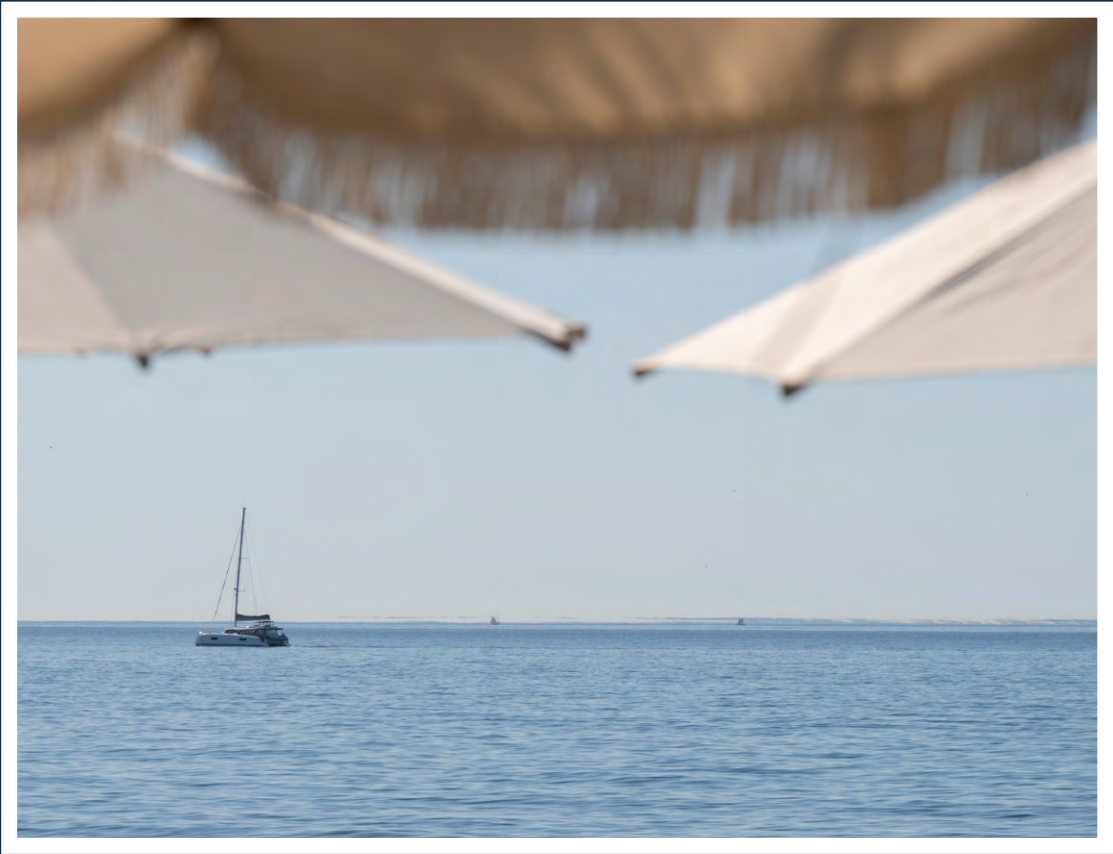

RAISE Fitness & Wellness offers exclusive fitness experiences, promoting a balanced lifestyle through training programs tailored to the individual needs of each guest. The cutting-edge facilities ensure an optimal environment for exercise and health.

Spaces for Memorable Events

The hotel has versatile rooms and spaces ideal for events. With spectacular views, incredible culinary experiences, and the best music, each space can be transformed to create unforgettable events.

RESTAURANTS

AMMOS Greek Restaurant

AMMOS dives into the depths of Greek culture to bring you the best of Greek cuisine. Every bite is a journey through the most authentic flavors, the most delicious textures, and the most irresistible aromas, transporting you to island life with every dish. Whether for a weekday family outing, a weekend party with friends, or an intimate moment at sunset, AMMOS is the perfect place for any occasion. Inspired by the dazzling natural beauty of Greece, AMMOS fuses the most contemporary of the Aegean coastline with a nod to the rich history and culture of the Greek islands. Its cozy atmosphere, illuminated by natural light, combines whitewashed walls and polished stone floors with rustic furnishings in soft tones. From casual chic during the day to modern elegance as dusk approaches, AMMOS offers a unique dining experience.

A la carte restaurant: 13:00 - 16:00h | **Total Capacity:** 150 Indoor: 30 Outdoor: 120

ISOLA Ristorante

Isola Ristorante, inspired by the rich culinary traditions of the Italian southern islands, offers a relaxing dining experience in the daytime and evening setting. With a focus on authenticity, Isola invites diners to enjoy a culinary escape that includes homemade pasta and Italian favorites, all made with fresh high-quality ingredients. Located at METT Hotel & Beach Resort Marbella - Estepona, Isola blends seamlessly into the resort's Mediterranean identity, offering a welcoming and relaxed atmosphere to satisfy even the most discerning expectations. In addition to its delicious gastronomic offerings, Isola presents an extensive selection of wines, carefully selected from Italy's finest wine regions, to complement every meal. Whether for a casual dinner with friends or a special occasion, Isola offers a unique dining experience that promises to satisfy the most discerning palates while transporting diners to the sunny shores of Italy. With Isola, enjoy the authentic essence of Italian cuisine in an elegant and relaxed setting.

SUSTAINABILITY POLICY

Sustainability is an important component to any global company and that includes Sunset Hospitality Group. With Sunset's exponential expansion across the map, the initiatives towards a Go Green movement are not forgotten. METT Hotel & Beach Resort Marbella - Estepona, Sunset Hospitality's first hotel opening in Europe, is implementing great initiatives to follow this movement. From the room cards produced with bamboo material, a component considered to be one of the most ecological and sustainable materials today, to the use of 100% recycled materials, such as the Auara water bottles whose packaging is Rpet 100%, Recycled and 100% Recyclable. In addition, the '0 km' products, offering ecological, organic, and local products, thus favoring the market of the area.

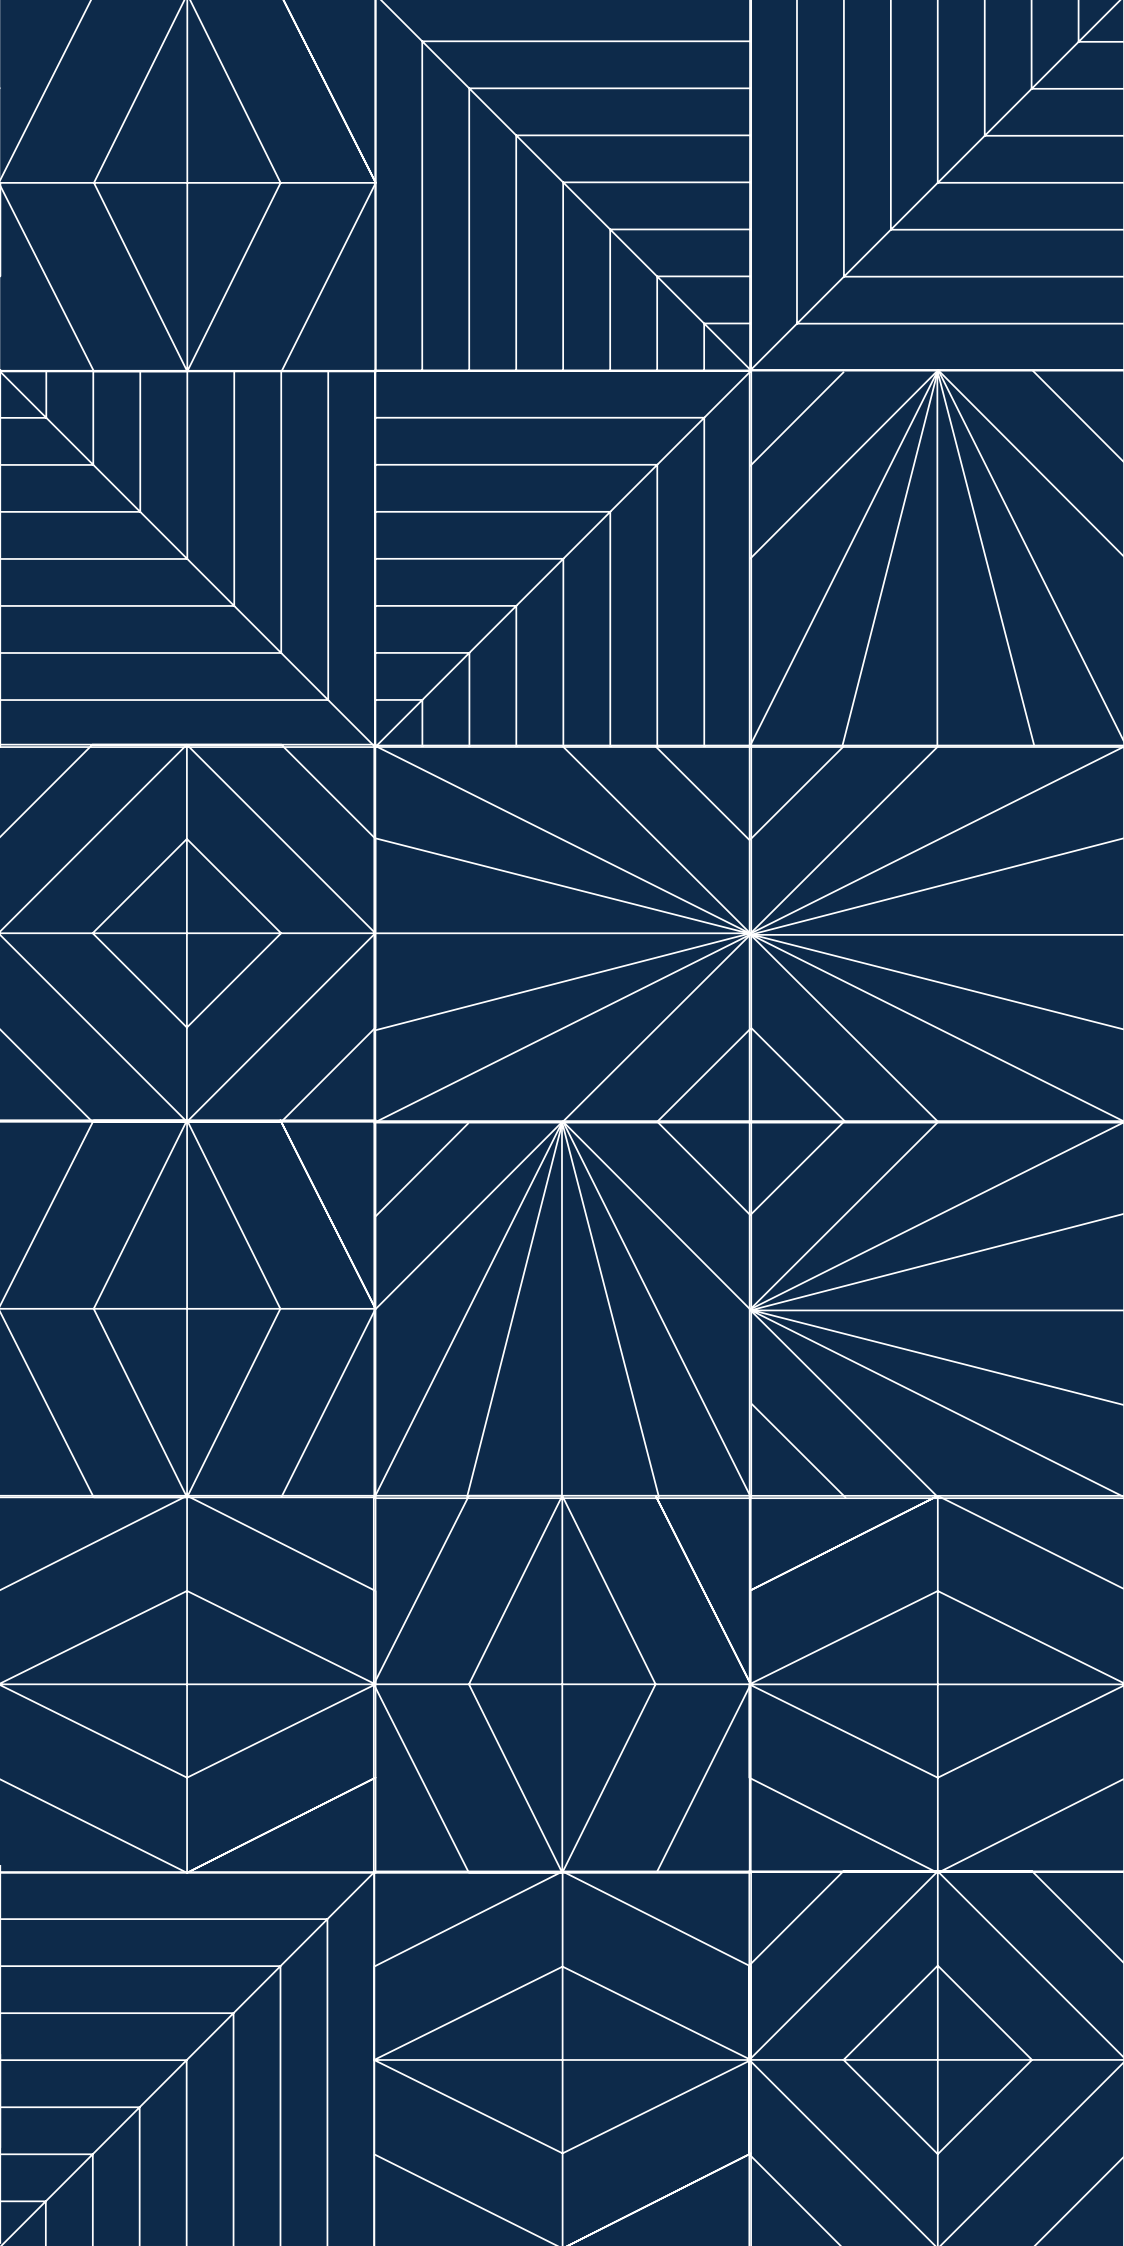

In **efforts to protect the environment**, the hotel has installed modern automation systems such as BMS & Metering. With the implementation of these systems the hotel now features smart meters that keep track of the impact that the building facilities are having on the ecological footprint.

As far as **energy is concerned**, we have two spaces for vehicles with electric chargers, two charging points each making a total of four charging points. We have also carried out the installation of photovoltaic panels through Blue Tree, positively affecting the environment and the profitability of the project, generating energy for self- consumption.

The **air conditioning installations** have been carried out by Airlan Systems. Manufacturer of Air Conditioning Equipment that offers solutions focused on energy efficiency, noise level and construction design.

In addition, to optimize the building's energy management, **we have a green roof** over Isola Restaurant that includes a brise-soleil, whose functions are to; retain rainwater, contribute to air purification, help the reduction of the ambient temperature, and to insulate thermally. In short, this effort is to contribute to saving energy and positively impacting climate change. All these actions have contributed to obtaining the CEE Certificate, the energy certificate resulting from the calculation of the energy consumption necessary to satisfy the energy demand of the building, reaching a **B Energy rating**.

We also have received the **BREEAM Certification Very Good**, a pioneering international certificate in sustainable architecture that measures the degree of environmental sustainability of buildings.
