The Lodge

The Lodge - An immersion in nature

At 41 m², The Lodge is an ideal cocoon for two adults. Inspired by the shape of a boat, its brown wooden cladding blends harmoniously into the surrounding landscape. This cozy accommodation includes a comfortable bedroom, a bright living room, and a spacious bathroom with a shower. Outside, a private 4 m² terrace facing the forest invites you to fully enjoy the serenity of nature, whether alone or with a partner. A true haven of peace in perfect communion with its environment.

The Cottage

The Cottage - Elegance at the heart of the forest

At 85 m², The Cottage is an oasis of peace designed to accommodate up to 4 adults. Nestled in a wooded setting, this warm lodge elegantly combines "country chic" decoration with modern comfort.

Its spacious living room opens onto a fully equipped kitchen and a terrace overlooking the forest, ideal for moments of relaxation or social gatherings. A second terrace, perched among the branches, offers a unique nature experience.

With two separate bedrooms (one of which is a mezzanine with a sofa bed) and two bathrooms, The Cottage provides all the space necessary for a comfortable and refreshing stay.

The Leaf

The Leaf – Harmony between design and nature

At 96 m², The Leaf is an architectural gem that can accommodate up to 4 adults. Inspired by the shape of a leaf, this home with curved and clean lines integrates perfectly into its surroundings, whether by the river or in the heart of the forest. Its spacious interior offers a unique experience: a modern kitchen surrounded by a plant structure, a bright living room, and a master suite with high ceilings that invites serenity. The spaces are designed to bring you closer to nature, with a terrace extending the immersion into this enchanting environment. The Leaf combines aesthetics and comfort for a stay where design and environment merge into one.

The TreeLoft

Sleep under the stars, relax in the canopy, and let yourself be enchanted by the magic of this suspended retreat.

The Lake House

The Lake House - Elegance by the water

At 96 m², The Lake House is a sophisticated refuge for up to 4 adults. Nestled at the edge of the Fouage pond, this stilt house seems to float on the water, highlighted by a subtle play of light and dark gray, perfectly in harmony with its natural setting. Designed as a duplex, it offers generous volumes filled with light, thanks to large openings that overlook the lake.
